

BIG TECH WANTED OKLAHOMA FAMILIES TO PAY THEIR POWER BILL.

GRANT GREEN SAID NO.

Grant is proposing a law forcing Big Tech data centers to generate their own power — instead of sticking Oklahoma families with the bill.

PRESIDENT TRUMP IS RIGHT:

BIG TECH SHOULD PAY ITS OWN WAY.

PRESIDENT TRUMP HAS BEEN CLEAR: Big Tech shouldn't stick American families with their energy costs.

In Oklahoma, Grant green is fighting back.

Grant's legislation requires massive data centers to build their own power or pay for the infrastructure they need.

Not Oklahoma families. Not Oklahoma small businesses.

BIG TECH PAYS.

Oklahoma families are protected.
